Dear Reid,

I am writing to say how pleased I am with the new windows Enviroglaze has installed to the front of my house. The quality of the windows is very good, replicating the original features and, greatly reducing the noise and dust etc. from the main road where we live. I feel sure that next winter we will notice the reduced heat loss too.

Your fixers also impressed me, they were really excellent, friendly, clean and tidy workers, producing a good standard of finish with the minimum of disturbance to the rest of the house.

Thanks very much!

Yours sincerely,

David E C King
